

**Announcement of the Foundation for the Promotion of Human Research
in Thailand, No. MSTD**

005/2568, regarding "Criteria for Considering Research Project Review Fees in Special Cases".

Announcement from the Foundation for the Promotion of Human Research in Thailand: "Regarding Fee Consideration and Special Case Research Project Review." This announcement aims to establish criteria for fee reductions or exemptions as requested by research project applicants. The Foundation's Executive Committee has established the following criteria for consideration: Research projects applying for review must meet all the following requirements:

1. The principal investigator must be affiliated with a partner institution that has signed a Memorandum of Understanding (MOU) with KMUTT.

In a multi-institutional ethical review of human research.

2. Research projects that lack or receive insufficient funding from government sources, professional associations, or non-profit organizations (within Thailand).

3. It is a multi-institutional research project implemented in accordance with urgent government policies or aimed at solving problems.

Health issues with widespread impact in Thailand.

4. The research project is not intended to provide commercial benefit to any private company.

However, the Foundation's Executive Committee may pass a different resolution at its meeting as deemed appropriate, in which case the resolution of the Executive Committee shall be considered final.

This is effective from now on.

Announced on July 8, 2025.

(Professor Kwanchanok Yimtae, M.D.)

Chairman of the Executive Committee

The Foundation for the Promotion of Human Research in Thailand
